**PUBLIC ROAD IN THE COUNTY.**—The Senate yesterday evening passed a bill appropriating \$50,000 for the improvement of the public road in Alexandria county, connecting the Chain, Aqueduct and Long bridges.

The bill provides that the money is to be expended under the direction of the Secretary of War for the purpose of necessary grading or otherwise improving by graveling or macadamizing, or both, the present public road from the Chain Bridge to the Aqueduct Bridge, and thence through the Arlington National Cemetery to the Long Bridge, all in the county of Alexandria, State of Virginia. Provided that a public road shall be first established along the route, free of cost to the United States, not less than 50 feet wide. And provided further, that the Secretary of War shall on full investigation select the public road to be so improved when there shall be two or more public roads between the points above named.

**AMUSEMENTS.**—On Monday night the Parisian Folly Company will appear at the Opera House, and it is said that this organization is one of the largest that has ever visited the city. The spectacular burlesque, "The Bachelor's Isle," is an entirely new and original one, and, unlike most burlesques, has a plot. The manager says the entertainment is entirely free from all vulgarity and one that any lady or gentleman might witness with perfect propriety.

On next Tuesday Barlow Bros.' minstrels will appear here. In speaking of this company the Baltimore Sun says: "It goes without saying that they are decidedly the very best minstrel organization traveling."

**A TERRIBLE INFLECTION.**—A patent medicine concocted in this city to-day several hundred wooden whistles, some very shrill and others of the chime pattern, for distribution to the juvenile portion of the community. They were given out at the postoffice corner at 2 o'clock, and in a few minutes thereafter the din raised throughout the city was as great as would have been produced by a dozen or so steam pianos operated by amateurs. If the medicine the whistles were intended to advertise is a panacea for the ills superinduced by distraction, the enterprise showed business tact.

Mr. L. EICHBERG requests an early examination of his fall and winter goods, just received. He says: "A ten days' stay in New York and the East, devoted to the careful selection of the products of the largest manufacturers and the imports of the largest houses, justifies me in the assertion that I am thoroughly prepared and fully equipped, with the most extensive stock ever shown in Alexandria, choice in design and pattern, and at prices sure to attract the purse." ## LOCAL BREVITIES.

To-morrow occurs the autumnal equinox. The days and nights are now of equal length.

Chinquepins have made their appearance in market.

It is alleged that democrats are being discharged from the Washington navy yard to make places for republicans.

Master Gordon Phillips has returned from the Providence Hospital, in Washington, almost cured of his lameness.

The City Democratic Committee will hold a meeting on Tuesday next at the office of Mr. L. Marbury in connection with the meeting of the District Committee.

The U. S. Senate yesterday passed the House bill appropriating \$7,000 for a road from this city to the national military cemetery near here. Some amendments were made on the part of the bill affecting the right of way and providing for certain concessions from the city. These differences can be easily adjusted, however.

It is reported that Richard Wood, who was recently drowned, and whose body was interred in Penny Hill, had \$300 in the pockets of the clothes in which he was buried. His friends, it is said, are to exhumate the body early in the winter and take the remains to St. Mary's county, Md.,—if some one else doesn't resurrect him before that time.

Joe Fielding, a pugilist, who for some time has been making his home in this city, was arrested in Washington last night for disorderly conduct and insulting a lady in the street. Several nights ago Fielding became very disorderly, while in an intoxicated condition, and broke several windows on D street. He made some insulting remarks to a lady who happened to be passing at the time, and afterwards threw a biscuit at her. A warrant had been out for him for some time, but he avoided arrest till last night.

The flame from a gas jet at the residence of Mr. E. C. Graham, on Prince street, between Pitt and St. Asaph, about seven o'clock last night set fire to a mosquito netting, which in an instant was in a light blaze. Mr. Graham in extinguishing the flames was slightly burned and lost a part of his mustache.

Judge Norton to-day granted a charter to the Capital Trust Company, the objects of which are to receive money on deposit; to hold stocks, valuations, &c., for safe keeping, &c. The capital stock is \$1,000,000, divided into shares of \$100 each. The incorporators are all Washingtonians.

At the meeting of the Junior Home Company last night two officers were elected—Vice President, Richard Purcell, and Assistant Foreman, Ernest C. Craven. Six names were proposed for membership.

Mr. Donald McLean brought to this office to-day an ear of corn which measured over a foot in length, and which he says is a fair sample of the corn raised this year on his farm in Fairfax.

The members of the Hydrant Fire Company and of the Drm Corps who went to Chester, Pa., to attend the firemen's celebration there, have returned.

Radam's Microbe Killer Co., Nashville, Tenn.:

Gentlemen—A member of my family has been afflicted with asthma for several years, the attacks recurring from time to time as is usual with this disease. In May or June of last year, 1889, these attacks became almost continuous, hardly a day or night passed without suffering from the distressing attacks until I became alarmed on account of the loss of sleep and the severity of the disease, fearing a general decline of the health. I consulted several eminent physicians in New York and in this city, but with no beneficial results from their prescriptions. About the first of September she commenced using the Microbe Killer, and since that time has never had a return of the paroxysms, and her general health has been correspondingly improved. I can cheerfully recommend the Microbe Killer to all asthmatic sufferers.

Yours, etc.,

It was just an ordinary scrap of wrapping paper but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live only a short time; she weighed less than seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle; it helped her more, she bought a large bottle, it helped her more, she bought another and grew better fast, continued its use and is now strong, healthy, rosy, plump, weighing 140 pounds.
